Wellness & Rehabilitation Clinic

Dr. Perry L. Lyons

Phone: (260) 436-6565 • FAX: (260) 459-1130
5649 Coventry Lane • Fort Wayne, IN 46804-7145

Dr. Lyons and his staff are dedicated to providing the best treatment and education available; through integrated services in rehabilitation and chiropractic medicine. Utilizing “Spinal Rejuvenation Therapy” (SRT), patients are trained in a system to restore spinal discs, and correct abnormal postures.

Our rehabilitative programs are very unique from all others. The programs can achieve very rapid changes, not only in correcting posture, but overall health. For example; when “Forward Head Posture” (FHP) is left untreated, it results in degeneration of the 5th cervical disc that stresses the spinal cord, starving vital organs in your body of nerve energy. SRT is specifically designed to reverse disc deterioration like this.

Our goal is to establish a long term relationship by providing a full service health advisory role. To make sure you receive the best care possible, we have developed and enjoy a wonderful referral relationship with local family and specialty medical providers.

We appreciate our relationship with Fast Print. They provide us with everyday forms, brochures, and our newsletter. We love the timely manner in which we are serviced. Fast Print is a vital partner in our service to the community.
