McMahon Tire was started in February of 1978. Our original location was 502 W. Jefferson at Fairfield. The Spanish Tower was built in 1929 by Harvey Firestone. The building now houses the Starbucks with the tower still in place. Our direct suppliers are Bridgestone, Firestone, Michelin, BF Goodrich, Continental, General, Goodyear, and Cooper. This direct relationship allows us to buy tires at the best price available. We currently have three locations, Glenbrook, the Truck Center located at the corner of Goshen and Coliseum, and Auburn. We employ 59 people. We supply all tire needs from lawn and garden tires to large off the road tires and everything in between. We are part of the Best One Group. We do complete car service with ASE certified mechanics. We also have 11 service trucks to handle our truck tire service for our many fleet accounts. Our biggest asset is our full time experienced employees; they help our customers in their tire and service needs. The McMahon family has operated this business for over 30 years. Jason with Fast Print has never let us down with our printing needs. Fast Print has the experience to offer everything we need to market all our own product and services. Thanks Fast Print!
