

SAVING PUBLISHER FILES WITH PACK AND GO

The next window will tell you how your files will be prepared - Click next.

You will now be prompted to select the location your packed files will go to. **All packed files will be named Packed01.puz so it would be best to create a new folder for your packed file to avoid confusion or overwriting other packed files.**

**THE NEXT WINDOW IS THE MOST IMPORTANT.
MAKE SURE ALL THREE BOXES ARE CHECKED.**

CAUTION: Embedded graphics don't save as well as linked graphics. Go under **TOOLS - COMMERCIAL PRINTING TOOLS - GRAPHICS MANAGER** to see if your graphics are embedded or linked. You make create links in this window for embedded graphics.

Click - Finish

The next window will tell you that your file has been packed.

CAUTION: Files using WordArt may print unpredictably.
